Interconnectable or independent  
Remote update and control  
Data security | OTC LAN (depending on version) Screen repeater (optional)  
Control panel (optional)

Compact blocks that can be integrated into all types of civil engineering.

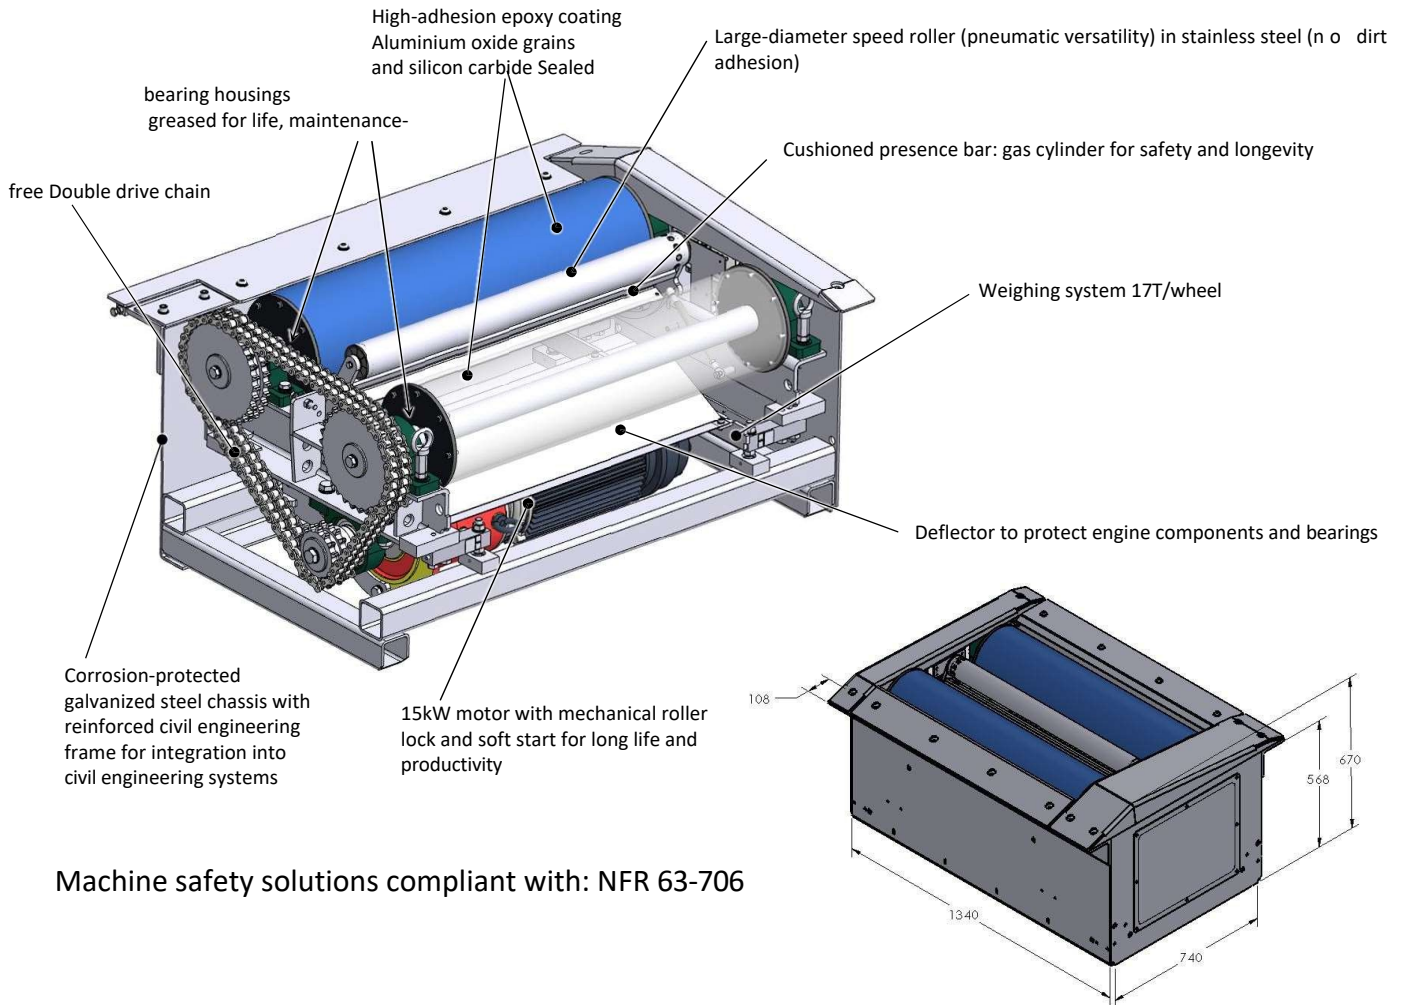

**SPECIFICATIONS:**

Max. axle load: 20 T Motors:  
 15 KW  
 Test speed: 2.5 km/h  
 Measurement range: 0-4,000  
 daN Braking distance: 80-280 cm  
 Power supply: 400V - 50 Hz - 80A curve D Weighing  
 range: 0 to 34T

**OPTIONS :**

CAP9100-SLIP: Shifting plate  
 CAP9200PEH: Play plates CAP91XX-  
 OTRL: Remote display CAP9680-RF:  
 Recessed idler rollers  
 CAP91XX-SAU: Security remote control

Machine safety solutions compliant with: NFR 63-706

**High security :**  
 Powder-coated steel  
 Anti-crossing plate  
 Warning beacon

**Pit safety :**  
 Infrared barrier  
 Mounted on swing gate

**Security remote control:**  
 with emergency stop  
 (optional)
